

# Video Compression

In order to submit an idling complaint through our DEP Portal, video files must be under 100mb each. This tutorial will show you how to compress video by using Website / Browser.

## For Website / Browser

- Open any browser – Chrome, Edge, Safari, etc. and go to <https://util.clipchamp.com> .
- Create a free account by pressing sign up located in the middle of the page or the upper right hand corner and using your email address.
- After Signing in. Select “Convert my Video”. ( **Figure 1.0**)

**Figure (1.0)**

- Then select the file.
- The recommended customization setting are : Optimization : Mobile , Resolution : 1080, Quality: High (**Figure 1.1**)

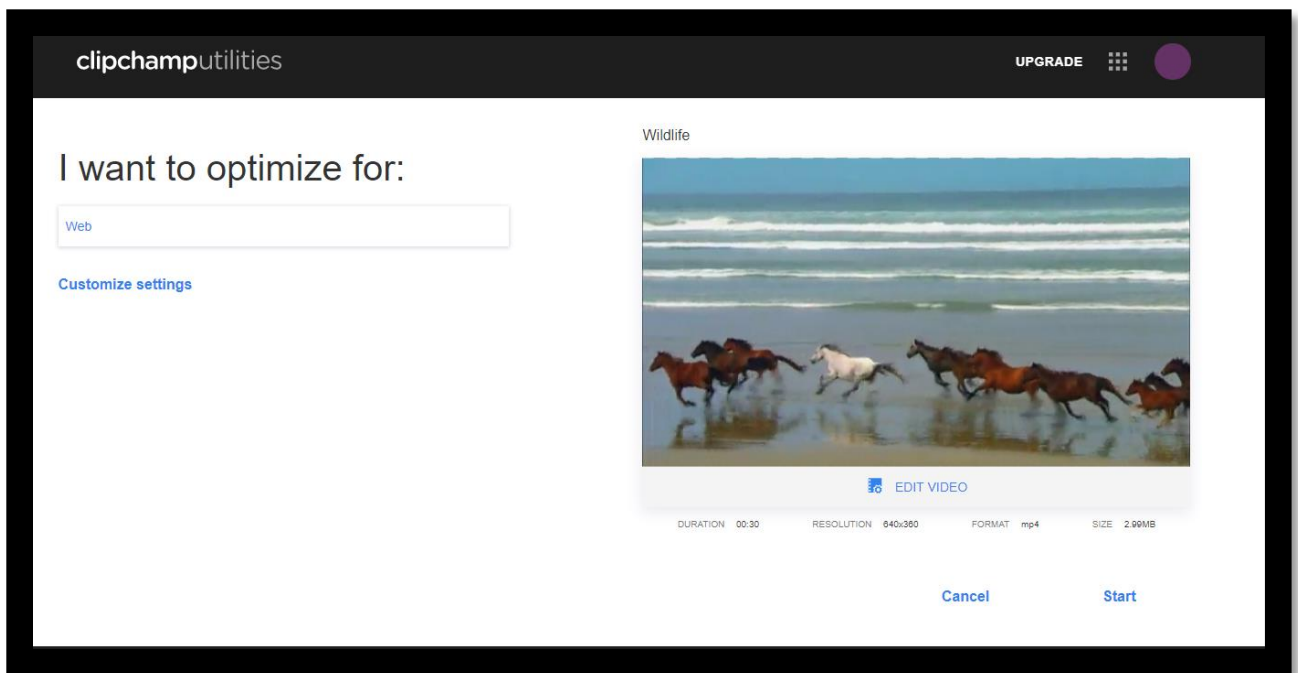

Figure (1.1)

- Save the file after it has finished converting. (Figure 1.2)
